

Nutrition and Dietetics Application Instructions

You can update your Open Enrollment major, minor and/or concentration, as well as either declare intent or formally apply to any Limited Admission or Portfolio major, minor or concentration, in your Degree Check!

Simply log into the Banner Information System, click on "Student Menu" then "Academic Records Menu" then "UG Degree Status Check". Utilize the blue hyperlinks in your curriculum block to Add, Drop, or Change a Major, Minor or Concentration.

Select the appropriate College, then Department, then Degree, then the Major. *See example below.* You'll be prompted to select an action type: choose "Formally apply to Major/Minor". You will then be prompted to answer the department's application questions. Formal application to a major or a minor is processed by the department, and will be handled at the department's review timeline. Acceptance to the major or minor will only be reflected in Banner if and when the department approves.

Change existing major: Human Dev & Family Studies

To update an **OPEN ENROLLMENT** major: Select the appropriate major. Once submitted, Banner will be updated within five minutes.

To **DECLARE INTENT** to a Portfolio or Limited Admission major: Select the appropriate major followed by "-INT". Once submitted, Banner will be updated within five minutes

To **FORMALLY APPLY** to a Portfolio or Limited Admission major: First review the application requirements for that major in the University Catalog (<http://spu.edu/catalog>) prior to submitting your application. Select the minor without the intended "-INT" indicator. Carefully and consciously answer the application questions. Once you submit your application, you will not be able to modify it. Formal application to a major must be reviewed by the department, and follows the department-outlined review timeline. Banner will be updated if the department approves the application.

Note: each question has a maximum of a 2000 character (325-350 word) response. Responses longer than this will result in an error.

When complete, press "submit" only once. You will receive an email confirmation of your submission shortly.

You are about to replace a field of study.
Please enter information for the new field of study below
and press "Submit" to proceed.
